

EUROFOUNT SFD1

An advanced fount solution concentrate for alcohol, conventional and integrated sheetfed dampening systems. SFD1 is suitable for all waters. The buffer system overcomes any water variations whilst an in-built water softener eliminates adverse effects of water contamination. SFD1's biocide system prevents any bacterial growth and the powerful synthetic desensitising system provides trouble-free running in all conditions.

- Suitable for all water conditions
- Large buffer system ensures constant pH
- Quick start-ups
- Suitable for all sheetfed applications

DIRECTIONS FOR USE

Use at 2% v/v dilution.
